

The script within this box is set to NOT RUNNING.

To make the script RUN, you must OPEN it up and click the blank check-less, [] Running, box to where it has a check-mark in it.

Make sure the script is set to mono.

Prices vary from script to script.

Default price is set at 150L.

Scripts can cost up to 500L for one script.

Look for bundle packs as they will save you considerable wealth.

Thanks for your purchase. Come again!

PS:

Be advised that someone may have already thought up of the script that I have sold, this holds true if the script is a particle script, color change script, texture change script etc. I do not copy scripts, and some scripts I have made for me OR I resell with permission by the author to which they get a cut from the sales. My script may also have been stolen and someone else is selling it.

If you are suspicious of the script, please come to me if you need to. If someone stole the script and is reselling it AS IS, please immediately come to me so I can resolve the issue.

DO NOT RESELL AS IS!

Some scripts may be no mod if they are requested by the author, if you wish for the script to be mod, please contact me so I may get in contact with the author.
