Animazoo Dance HUD III instructions

Now you can invite others to dance with you!

Instructions

To use: Drag the HUD from your inventory onto your avatar to wear.

On / Off button: Starts and stops your avi dancing

Arrow: Change dance

Centre button: Bring up the main menu

Main Menu:
Invite - you can invite others to dance with you
Stop - you can stop
Instructions - gives you a copy of this notecard
Timing - allows you to set how often your HUD changes dance
Messages - turn on / off the HUD status messages
Landmark - gives you a landmark for the main Animazoo store

Adding or Removing dances

1) If you are wearing your HUD, turn it off and detach it.

2) Drag the HUD from your inventory onto the ground nearby. Be careful here, as it is very small, and could easily be lost.

3) Right click then 'Edit' the HUD. Click the 'content' tab on the edit dialog that appears. Note, if you cannot see a 'Content' tab, click the button labelled 'More'.

4) The content tab shows a list of everything in the HUD. Drag and drop dances from your inventory onto the list.

5) Right click your HUD, and chose 'Take' from the pie menu. The HUD is now in your inventory, ready to be worn.

Inviting others to dance with you

Click the central menu button on your HUD.
A dialog containing names of avis close by appears
Select the avi you want to invite to dance
That's it!

To stop someone dancing with you, click stop in the menu and select the person's name from the dialog that appears
The dialog also has a button marked 'Everyone'. This stops everyone dancing and turns off the HUD

Attachment problem

Attaching the HUD in places other than top right can cause the HUD to not be displayed properly. The picture below shows the solution.

1. HUD may appear like this if attached incorrectly

2. To fix, right click-> edit the HUD

3. set the Y rotation to 270 and the Z rotation to 180

4. your HUD is now displayed correctly

Support

We pride ourselves on providing excellent customer support. To solve your problem or answer your query most effectively, please follow the steps below:

1) If you have lost a copy perms item, or it wasn't delivered, please simply click the 'replace missing item' button on the support terminals in the main Animazoo store.

2) Check the FAQ on the website here:
                    http://animazooanimations.com/support_faq.html

3) Create a support ticket by clicking the Support Ticket button here:
                    http://animazooanimations.com/support.html

We aim to answer all support tickets within 48 hours.

Enjoy!
