

## Coastal Bedroom Set

Scandinavian Homes proudly presents the 'Coastal Bedroom Set'. Give your bedroom a makeover and sense the feeling of the ocean in your home. The bedroom contains furniture with coastal inspired textures as shown in the table below. All items are modifiable and copyable.

All animation setups are made by the AV-sitter Pose System. AV-sitter is a tool for building and controlling animations in things, furniture mostly. It serves for simple to complex animation control. This means you can adjust the animation poses to any avatar of your choice. All animations in the furniture are sitting/lying animations – there is no cuddle- or adult animations incorporated in the furniture.

Below is a table with features:

Furniture	Features	Land-impact
Coastal Double Bed	7 unisex lying animations activated by a menu, 2 avatars	2
Coastal Tall Chest Armoire		1
Coastal Privacy Screen		1
Tufted Cushion On Bench	6 male/6 female sitting animations	1
