Tears

adjust

First wear the tears and the HUD

And click on this button

Alpha: 85%
Speed: Median
Flow: Median

Speed   Flow   Presets
Exit   Adjust Alpha
                 Ignore
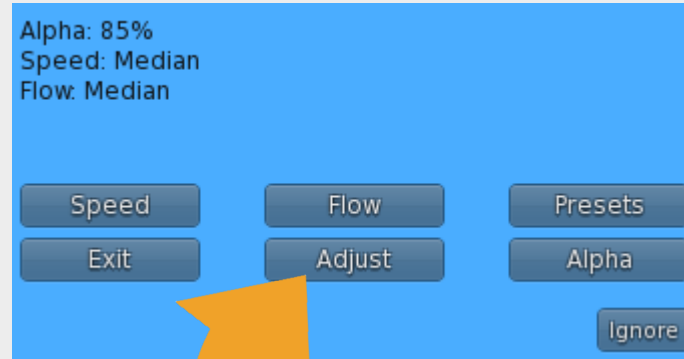

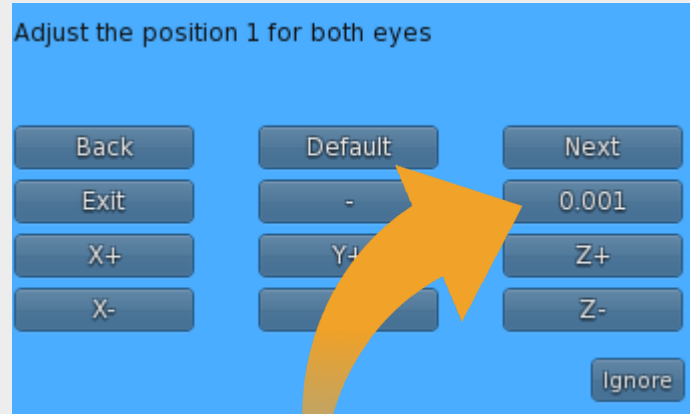

Click on this button
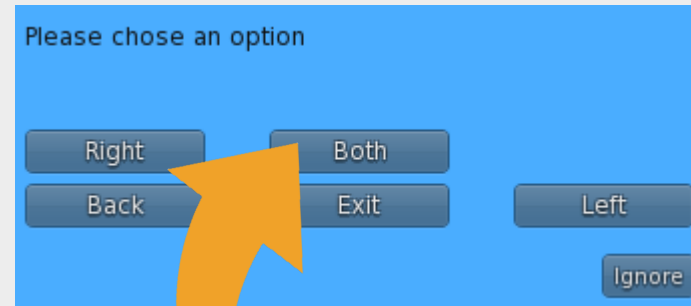

Click on this button

« Both » means you are adjusting for both sides with symetrical effect

If you want a different effect for each eye then choose right or left
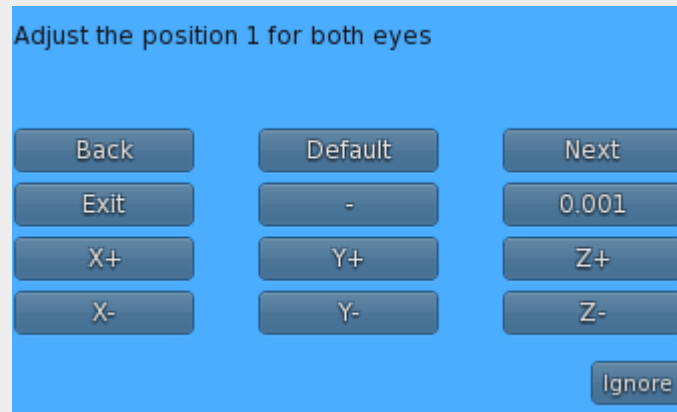

You should see the tear on left eye

If you do not see the tear sure it is positioned under the skin, in this case you will bring it back to the surface by moving it on the X axis with the X+ button

You can change increment with this button

Position 1

Adjust the position 1 for both eyes

| Back | Default | Next |
Exit	-	0.001
