

## MECHANICAL ELEPHANT

Drawing: graphite, ink-pen, mechanical, elephant, colored-pencil

A mechanical elephant with a driver in the head, stands next to a small fence, barrel and box with a mountain in the background. Front foot plates are removed to see the mechanics.

### FEATURES

#### MODIFY & TRANSFER

- 1 (1LI) prims canvas of artwork on front image and back info
- Artwork texture inside canvas
- Includes a Copy/Modify Texture(s)
- 1 Certificate viewer with additional images and information

Copyable products can be redelivered. If you lose your items, both the SL Marketplace and CasperVend systems can redeliver your purchase.

### UNPACKING CASPERVEND

CasperVend items come in a box and will probably show up in your Objects Folder. You'll need to rez the box and open it to copy to your inventory. Since there are no copy permissions, you'll get a message that they have to move to inventory. There is a Sandbox on the Milda shops.

### UNPACKING SL MARKETPLACE

Marketplace purchases most likely will not be boxed and can be viewed in the contents tab on the product page. Those items will go to your Received Items Folder in your Inventory. Items with no copy permissions, will move in and out of inventory as you rez them and take them back.

### INFORMATION

Full project and artwork information at <http://thunderchild.net>.

"Mechanical Elephant" is a 2010 mechanical pen and pencil creation. The focus was the Elephant and I also wanted to provide elements for the vanishing point, shadow lines and reflection. The fence provides my vanishing point and shadow, along with the box and barrel. The elephant shadows wasn't done by strict lines from the sun like the fence, box and barrel. It was rendered to basic looks to match the complex form of the elephant.

The Driver can be seen in the head. Presumably one or two other crew members are inside. Some of the feet plates are removed and set aside to expose the workings.

I imagined the ear that are directional and could be could opened up for increased sensitivity. The trunk functions in many fashions like a real elephant for manipulating things, but may also have various sensors. The tusks are an EMF (electro magnetic field) weapon. They are tuned to each other like two dipole antennas, so any EMF field could be aimed to a degree.

### AVAILABILITY

This product is available in Second Life (SL) and Real Life (RL). RL products are provided by third-party on-demand companies including [RedBubble.com](http://RedBubble.com), [Society6.com](http://Society6.com), [Spoonflower.com](http://Spoonflower.com) and others
