

Hello, Hola, Ola, Hallo Customers:

**** READ BEFORE USING!! ****

Thank you for purchasing or considering to purchase my customizable Card -
You can type your own personal message of up to 250 characters and spaces.
This is about 45-50 words.
I recommend that you type about 40 words or less.

**** Try my demo cards at my Inworld store, before purchasing !!!!**

Find the Card in your INVENTORY and left click onto it. Drag the Card onto the ground while holding down the left mouse button.
Left click the front of the Card to open it. Follow the instructions which appears.

**** NOTE:** If you make a mistake with your typing then do the following:

- 1) type stop
- 2) press ENTER key on your keyboard or SAY button on your SL viewer
- 3) type reset
- 4) press ENTER key on your keyboard or SAY button on your SL viewer

You, the original purchaser, can change the message as many times you like.
But the receiver cannot remove your message. :))

****** When you finish typing your message, remember to type stop in local chat, at the end of your message, on a new line.

**** NOTE:** Unlike previous cards, this card can be rotated and the opening/closing will be unaffected.
However, make sure you close the card and then rotate it.

COME TO MY INWORD STORE AT SILVERGLADE TO SEE MANY MORE SELECTIONS.

LOVE,
Summer Siemens
