## Introducing the PD-Uniform.

We've been hard at work for months researching, designing, and perfecting the ideal Police uniform for RP communities and departments around the grid. We're excited to finally bring you the culmination of all our work. Our PD-Line of items including the Uniform, Belt, Cuffs, and other accessories have been designed from the ground up to provide you with a cohesive, realistic uniform for your next patrol. With several industry-first options and features, we've built this uniform for those looking for only the very best. With that, let us introduce you to our biggest project yet...

# **Standard Uniforms vs. Department Uniforms**

---

## **Standard Uniforms**

Police Uniforms purchased from our store without any pre-configured department customizations will always be available for those via our marketplace or in-world store. These uniforms will offer every level of customization for the officer and will not require any group authorization. As a regular WZRWRKS product, this uniform will belong to you. A feature of this uniform will be greater customization as mentioned, however, we will offer a script-delete option which will reduce the script count of the uniform once the officer has customized it to their liking. We recommend these uniforms to those who often change departments or roleplay outside of select communities. Not only will these uniforms offer the customer more customization, but they will also have access to quicker updates and new features.

## **Department Uniforms (Applications Closed)**

We're happy to announce we're partnering with more communities around the grid to supply standardized, low-lag uniforms with pre-configured options. Department uniforms are exclusively distributed through your department only via The Department Program we offer. This program is by application only and requires the use of a WZRWRKS on-site vendor which distributes (sells) the pre-configured uniforms to department-verified members. Discounts can apply based on the department size. These uniforms can only be acquired via the WZRWRKS vendor on-site only if you're an active department member. Verification includes the appropriate group tag along with requiring group authorization which will happen when the uniform is attached. This ensures that the officer is an active member of the department. The uniform will not attach/allow for use outside of the department group. We recommend these uniforms to officers who belong to a community/department that requires a standardized, low-lag uniform while on patrol.
