

First you have to buy the "PIAGGIOSYSTEMS RELINKER" script package from

<https://marketplace.secondlife.com/p/PIAGGIOSYSTEMS-RELINKER/14160863>

Open it and look only for the "RELINKER - MAIN" script

In the Kit Box you will find

1. Add-On-Safe for (TMS) Amante (Rez-me)
2. This note

Generality Instruction for "Add-On-Safe for (TMS) Amante"

Be sure that the name of your boat is the Original name from TMS "(TMS) Amante 1.0", if not change it back (After you will Add the Kit, you can change the name as you like)

1. Rez the boat, right click on the boat > More > More > Scripts > Stop Script

wait for the script will be stopped.

2. Next rez the AddOn next to the Boat (The AddOn will find his place on your boat)

3. Drag and drop the "RELINKER - MAIN" script in to the boat the wait for the script menu (Top right on your screen),

There is three questions that you need to answer "Yes" for the process will end.

Starting unlink operations - answer "Yes"

Launching remote link - answer "Yes"

Starting relink of parts - answer "Yes"

4. Right click on the boat > More > More > Scripts > Start Script ,

wait for the scripts will be Start.

Explanation on the HUD

By clicking on the rescue cannot you get a cannot, if you are in an area where this is allowed, otherwise you gain the cannot in your inventory,

by opening the box for the alarm pistol and clicking on it you gain a pistol alarm with its recharges

Enjoy your New AddOn Kit
