Rev. 12/12/24

These nukes are for fun and role playing. They do not push or kill.

FEATURES

- *Single A-Bomb to quantities.*
- Suitcase nukes in large and small sizes.
- Crate of 14 nukes each with Atomic Monkey or Ape.
- Bundled suitcases of 14 unites.
- Memorabilia poster, coffee cups and where to see Dr. Strangelove...

We've beefed up the nukes for the new year! The nuclear arsenal has been packaged in a few different ways for your purchasing choices and explosive enjoyment.

You can preview the bomb demo on a HUD. It has photos of the site and the explosion. You can get the notecard with landmarks from the Demo HUD.

There is the single A-Bomb all by itself. You can purchase quantities of the single A-Bomb.

There are two suitcase nukes, one large and one small. Each can be carried in hand, large on right and small on left. You can carry both at one time. They are active explosives and will detonate on touch when rezzed on ground. You can purchase either one by itself or in quartiles.

The A-Bombs and suitcases come prepackaged as 14 per package, 0 through 13. The bombs come in crates with labels for Atomic Monkey or Atomic Ape. For the boys in Albuquerque and Sandia Labs!

There is a memorabilia poster with some old posters' images and the best scene from "Dr. Strange love, or: How I learned to stop worrying and love the bomb."

The Crates are safe for handling. Crates will give a bomb to anyone that touches it. The bundled suitcases also give one suitcase to anyone that touches it.

Items are bundled on crates in various ways.

All explosives are transfer only. You can give or resell an entire crate or individual bombs.

These products are not available for re-delivery.
