

Covey Donations System

Introduction

The Covey Donations System is a professional donations script designed for a multitude of situations. It can be used like a typical venue donation, but it can also be used for events like weddings, where the donations are sent to one or more avatars other than the object owner.

The script comes in a donation bowl, which you can use or move into any item you like.

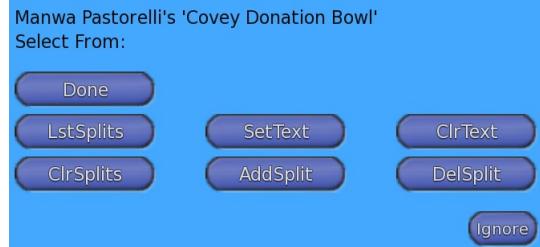

Using the Covey Donations System

When you first get your delivery, the script will be inside the Covey Donations Bowl object. If you wish to use your own item, drag a copy of the script into your inventory, then from there into the item you want to use; otherwise, you're ready to go.

It's important to note that if you are using this like a venue donation jar, you will need to add your own UUID

Now click on the item to get the menu.

Main Menu

| | |
|---|--|
|  | <ul style="list-style-type: none">• LstSplits:<ul style="list-style-type: none">○ Lists all the current payment splits• SetText:<ul style="list-style-type: none">○ Sets The Hover Text• ClrText:<ul style="list-style-type: none">○ Clears The Hover Text• ClrSplits:<ul style="list-style-type: none">○ Clears All Current Splits• AddSplit:<ul style="list-style-type: none">○ Adds an avatar for donation splits• DelSplit:<ul style="list-style-type: none">○ Removes an avatar from the donation splits |
|---|--|

The AddSplit and DelSplit options open another dialogue menu. From there, you copy and paste the avatar's UUID (key).

Add Split

| | |
|--|--|
| <p>Manwa Pastorelli's 'Covey Donation Bowl' Enter UUID to add</p> <input type="text"/> <p>Submit Ignore</p> | <p>Copy/paste or type in the avatar's UUID, then click submit.</p> <p>If you enter an invalid UUID, a message will be displayed locally. Then it will pop up again so you can re-enter it.</p> |
|--|--|

Delete Split

| | |
|--|--|
| <p>Manwa Pastorelli's 'Covey Donation Bowl' Enter UUID to add</p> <input type="text"/> <p>Submit Ignore</p> | <p>Copy/paste or type in the avatar's UUID, then click submit.</p> <p>If you enter an invalid UUID, a message will be displayed locally. Then it will pop up again so you can re-enter it.</p> |
