STUDIO

2026

All poses by Cordeaux Studio are crafted in Blender, ensuring smooth, natural movement.

Each pose is fully compatible to be modified with any PoseHud, giving you the freedom to adjust, refine, and personalize them to suit your vision.

This guide will walk you step by step through using and customizing your pose:

★★★ OPEN your package
→ Once you get your package delivered, simply add it.
→ The new updated package will open and copy the package content automatically to your inventory.

[!] Poses do not include any items shown in the vendor photos. Backgrounds, lights, clothes and environment settings are user-controlled.

★★★ REZ option
→ You will find two pose variations: 1 animation and 1 poseball version for each pose included in the package.
→ Animation versions are ready to be added to your favourite pose stand. They are Copy/Mod
→ Poseball versions are ready to be rez. In case of couple packages, poseballs are not linked to each other so you can freely move, rotate, and position as needed.

/ YOU NEED TO TURN YOUR AO OFF /

→ Due to variations in avatar shapes and proportions, adjustments may be required. Depending on your avatar shape you might need to adjust it accordingly. Poses can be adjusted using any animation system huds.

★★★ MODIFY a pose

→ Each pose is fully compatible to be modified with any Pose-hud of your preference, giving you the freedom to adjust, refine, and personalize them to suit your vision.

→ We recommend Any Photo Hud System you like.

[!] Important: You only will be able to modify a pose with a hud.
