

.+~!!!Attention Residents please!!!~-.+

A lot of the Residents avatars are having trouble retrieving their presents from the market place. The reason for this is, that the Resident avatars are not registered automatically at the second life homepage. This is not due to the Shopowners!

->If your avatar name ends with resident,all you have to do is this:

1. Register at the second life homepage
2. Take the link to the market place
3. Purchase any good, price doesn't matter, but it has to be at least 1Lindendollar
4. If you get the good you're now succesfully registered! You'll get all the presents now too!

If you are not getting the goods you purchased, the market place is going to refund you automatically, usually within 6 hours! The merchants are getting your money only if and at the same time you are getting your items! So if you don't get your items, the seller didn't get your money.

Every buyer automatically receives an email, in which the market place's refunding system is explained in detail.
