Absolut Design is providing you quality and unique textures, all made in Adobe Illustrator and Photoshop. Most of the textures are 512x512 pixels to prevent lag and making them rez fast. For custom textures, posters or logos please contact AbsolutDesign Resident or write us an email to the absolutd.office@gmail.com adress.

We also provide you low poly meshes with high LOD, UV map and example texture. The 3d objects are made in Autodesk Maya and keeping them as simple as we can to get low land impact.
